It's easy to qualify for the cash commission. Just follow these steps:

- 1) Prospect must be a new member applicant or a lapsed member for at least 6 months.
- 2) A completed membership application must be signed by both the new member applicant and the person selling the membership.
- 3) The completed application, with both signatures and a check (or credit card information) for the full amount of the membership, must be mailed or delivered to the chamber office.
- 4) The commission will be paid only after the new member application has been voted on and approved by the chamber board.
- 5) In the unlikely event the board does not approve the new member application, no commission will be paid.
- 6) The membership commission does not apply to renewal of existing memberships.
- 7) Only current, paid-up chamber members are eligible to receive a commission for signing up a new or lapsed member.
